## Governmental fund type:

- General fund
- Special revenue fund
  - Management Levy fund
  - Public Education and Recreation Levy fund (PERL)

A debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Proprietary funds account for operations of the school district operated similar to private business, or they account for the costs of providing goods and services provided by one department to other departments on a cost reimbursement basis. Fiduciary funds are used to account for monies or assets held by the school district on behalf of, or in trust for, another entity. The account groups are the accounting records for capital assets and long-term debt.

GOVERNMENTAL ACCOUNTING PRACTICES AND REGULATIONS

School district accounting practices will follow state and federal laws and regulations, generally accepted accounting principles (GAAP) and the uniform financial accounting system provided by the Iowa Department of Education. As advised by the school district's auditor, determination of liabilities and assets, prioritization of expenditures of governmental funds and provisions for accounting disclosures shall be made in accordance with governmental accounting standards.

In Governmental Accounting Standards Board (GASB) Statement No. 54, the board identifies the order of spending unrestricted resources applying the highest level of classification of fund balance - restricted, committed, assigned, and unassigned - while honoring constraints on the specific purposes for which amounts in those fund balances can be spent. A formal board action is required to establish, modify and or rescind a committed fund balance. The resolution will state the exact dollar amount. In the event, the board chooses to make changes or rescind the committed fund balance, formal board action is required.

The Board authorizes the Board Secretary to assign amounts to a specific purpose in compliance with GASB 54. An 'assigned fund balance' should also be reported in the order of spending unrestricted resources, but is not restricted or committed.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It is also the responsibility of the superintendent to make recommendations to the board regarding fund balance designations.

## DEBT MANAGEMENT POLICY

### DEBT LIMITS

#### Credit Ratings

The school district seeks to maintain the highest possible credit ratings for all categories of short- and long-term debt that can be achieved without compromising the delivery of services and the achievement of adopted objectives. The school district recognizes that external economic, natural, or other events may from time to time affect the creditworthiness of its debt. Nevertheless, the school district is committed to ensuring that actions within their control are prudent.

#### Debt Limits

For general obligation debt, the school district's outstanding debt limit shall be no more than five percent (5%) of the actual value of property within the school district's boundaries, as prescribed the Iowa constitution and statutory restrictions.

For revenue debt, the school district's goal is to provide adequate debt service coverage of at least 1.20 times the annual debt service costs.

In accordance with Iowa law, the school district may not act as a conduit issuer or issue municipal securities to raise capital for revenue-generating projects where the funds generated are used by a third party ("conduit borrower") to make payments to investors.

### PURPOSES AND USES OF DEBT

#### Capital Planning

To enhance creditworthiness and prudent financial management, the school district is committed to systematic capital planning, intergovernmental cooperation and coordination and long-term financial planning.

#### Capital Financing

The school district may issue long-term debt for capital projects as authorized by Iowa law, which include, but are not limited to, the costs of planning, design, land acquisition, buildings, permanent structures, attached fixtures or equipment, and movable pieces of equipment. Capitalized interest may be included in sizing any capital project debt issue. The types of debt instruments to be used by the school district include:

- General Obligation Bonds
- General Obligation Capital Loan Notes
- Bond Anticipation Notes
- Revenue Anticipation Notes
- School Infrastructure Sales, Services and Use Tax Revenue Bonds
- Lease Purchase Agreements, including Certificates of Participation

#### Working Capital Financing

The school district may issue debt for working capital for operations after cash flow analysis has determined that there is a mismatch between available cash and cash outflows. The school district shall strive to repay working capital debt by the end of the fiscal year in which the debt was incurred. A Working Capital Reserve may be included in sizing any working capital debt issue.

## DEBT MANAGEMENT POLICY

### Refundings

Periodic reviews of all outstanding debt will be undertaken to determine if refunding opportunities exist. Refunding will be considered (within federal tax law restraints) if and when there is a net economic benefit of the refunding or if the refunding is otherwise in the best interests of the school district, such as to release restrictive bond covenants which affect the operations and management of the school district.

In general, advance refundings for economic savings will be undertaken when a net present value savings exceeds three percent of the refunded debt can be achieved. Current refundings, which produce a new present value savings of less than three percent will be considered on a case by case basis taking into consideration bond covenants and general conditions. Refundings with negative savings will not be considered unless there is a compelling public policy objective for doing so.

### DEBT STANDARDS AND STRUCTURE

#### Length of Debt

Debt will be structured for the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users. Long-term debt will not be issued for periods exceeding the useful life or average useful lives of the project or projects to be financed. All debt issued will adhere to state and federal law regarding the length of time the debt may be outstanding.

#### Debt Structure

Debt will be structured to achieve the lowest possible net cost to the school district given market conditions, the urgency of the capital project, the type of debt being issued, and the nature and type of repayment source. To the extent possible, the school district will design the repayment of its overall debt to rapidly recapture its credit capacity for future use.

Generally, the school district will only issue fixed-rate debt. In very limited circumstances, the school district may issue variable rate debt, consistent with the limitations of Iowa law and upon a finding of the board that the use of fixed rate debt is not in the best interest of the school district and a statement of the reasons for the use of variable rate debt.

All debt may be structured using discount, par or premium coupons, and as serial or term bonds or notes, or any combination thereof, consistent with Iowa law. The school district should utilize the coupon structure that produces the lowest True Interest Cost (TIC) taking into consideration the call option value of any callable maturities.

The school district will strive to structure their debt in sinking fund installments for each debt issue that achieves, as nearly as practicable, level debt service within an issue or overall debt service within a particular classification of debt.

Derivatives (including, but not limited to, interest rate swaps, caps, collars, corridors, ceiling and floor agreements, forward agreements, float agreements, or other similar financing arrangements), zero-coupon or capital appreciation bonds are not allowed to be issued consistent with State law.

#### Decision Analysis to Issue Debt

Whenever the school district is contemplating the issuance of debt, information will be developed concerning the following four categories commonly used by rating agencies assessing the school district's credit worthiness, listed below.

Debt Analysis – Debt capacity analysis; purpose for which debt is proposed to be issued; debt structure; debt burden; debt history and trends; and adequacy of debt and capital planning.

## DEBT MANAGEMENT POLICY

Financial Analysis – Stability, diversity, and growth rates of tax or other revenue sources; trend in assessed valuation and collections; current budget trends; appraisal of past revenue and expenditure trends; history and long-term trends of revenues and expenditures; evidences of financial planning; adherence to GAAP; audit results; fund balance status and trends in operating and debt funds; financial monitoring systems and capabilities; and cash flow projections.

Governmental and Administrative Analysis – Government organization structure; location of financial responsibilities and degree of control; adequacy of basic service provision; intergovernmental cooperation/conflict and extent of duplication; and overall planning efforts.

Economic Analysis – Geographic and location advantages; population and demographic characteristics; wealth indicators; types of employment, industry and occupation; housing characteristics; new construction; evidences of industrial decline; and trend of the economy.

### DEBT ISSUANCE

Credit enhancements (i.e., bond insurance, etc.) may be used but only when the net debt service on the debt is reduced by more than the costs of the credit enhancement.

#### **Method of Sale**

Generally, all school district debt will be sold through a competitive bidding process. Bids will be awarded on a TIC basis providing other bidding requirements are satisfied.

The school district may sell debt using a negotiated process in extraordinary circumstances when the complexity of the issue requires specialized expertise, when the negotiated sale would result in substantial savings in time or money, or when market conditions of school district credit are unusually volatile or uncertain.

#### **Professional Service Providers**

The school district will retain external bond counsel for all debt issues. The bond counsel retained must have comprehensive municipal debt experience and a thorough understanding of Iowa law as it relates to the issuance of the particular debt.

The school district will retain an independent financial advisor. The financial advisor will be responsible for structuring and preparing all offering documents for each debt issue. The financial advisor retained will have comprehensive municipal debt experience, experience with diverse financial structuring and pricing of municipal securities.

The treasurer shall have the authority to periodically select other service providers (e.g., escrow agents, verification agents, trustees, arbitrage consultants, rebate specialist, etc.) as necessary to meet legal requirements and minimize net debt costs. These services can include debt restructuring services and security or escrow purchases.

## **DEBT MANAGEMENT POLICY**

Compensation for bond counsel, financial advisor and other service providers will be as economical as possible and consistent with industry standards for the desired qualification levels.

### **DEBT MANAGEMENT**

#### **Investment of Debt Proceeds**

The school district shall invest all proceeds received from the issuance of debt separate from the school district's consolidated cash pool unless otherwise specified by the authorizing bond resolution or trust indenture. Investments will be consistent with those authorized by Iowa law and the school district's Investment Policy to maintain safety of principal and liquidity of the funds.

#### **Arbitrage and Record Keeping Compliance**

- 2) proper maintenance of records to support federal tax compliance;
- 3) investments and arbitrage compliance;
- 4) expenditures and assets;
- 5) private business use; and
- 6) designation of primary responsibilities for federal tax compliance of all bond financings.

#### **Financial Disclosure**

The school district is committed to full and complete financial disclosure, and to cooperating fully with rating agencies, institutional and individual investors, other levels of government, and the general public to share comprehensible and accurate financial information. The school district is dedicated to meeting secondary disclosure requirements on a timely and comprehensive basis, as promulgated by the Securities and Exchange Commission.

The Official Statements accompanying debt issues, Annual Audits, and Continuing Disclosure statements will meet the standards articulated by the Municipal Securities Rulemaking Board (MSRB), the Government Accounting Standards Board (GASB), the Securities and Exchange Commission (SEC), Generally Accepted Accounting Principles (GAAP) and the Internal Revenue Service (IRS). ## PURCHASING – BIDDING

The board supports economic development in Iowa, particularly in the school district community. As permitted by law, purchasing preference will be given to Iowa goods and services from locally-owned businesses located within the school district or Iowa based companies if the cost and other considerations are relatively equal and meet the required specifications. However, when spending federal Child Nutrition Funds, geographical preference is allowed only for unprocessed agricultural food items. Other statutory purchasing preferences will be applied as provided by law, including goals with regard to procurement from certified targeted small businesses, minority-owned businesses, and female owned businesses.

Prior to August 15 of each year and after analyzing the school district's anticipated procurement level for the current fiscal year, the school board will set a goal of ten percent of the anticipated procurement level to be purchased from certified targeted small businesses. In determining the procurement level, the cost of utilities (heat, electricity, telephone and natural gas) and employees' costs will not be included. After the goal has been established, the superintendent will file the required Targeted Small Business Procurement form with the Department of Education by August 15.

By July 31 of each year, the superintendent will file a report with the Department of Education outlining purchases of goods and services from targeted small businesses for the previous fiscal year.

The school board and superintendent will encourage targeted small businesses which are not certified with the Department of Inspections and Appeals to become certified targeted small businesses.

### **Goods and Services**

The board shall enter into goods and services contract(s) as the board deems to be in the best interest of the school district. It shall be the responsibility of the superintendent to approve purchases, except those requiring board approval as described below or as provided by in law. The superintendent may coordinate and combine purchases with other governmental bodies to take advantage of volume price breaks. Joint purchases with other political subdivisions will be considered in the purchase of equipment, accessories, or attachments with an estimated cost of \$50,000 or more.

Purchases for goods and services shall conform to the following:

- The superintendent shall have the authority to authorize purchases without prior board approval and without competitive request for proposals, quotations, or bids for goods and services up to \$25,000.
- For goods and services costing at least \$25,000 and up to \$80,000, the superintendent shall receive proposals, quotations, or bids for the goods and services to be purchased prior to board approval. The quotation process may be informal, and include written or unwritten quotations.
- For goods and services exceeding, \$80,000 the competitive request for proposal (RFP) or competitive bid process shall be used and received prior to board approval. RFPs and bids are formal, written submissions via sealed process.

In the event that only one quotation or bid is submitted, the board may proceed if the quotation or bid meets the contract award specifications.

Revised March 2019

The contract award may be based on several cost considerations including, but not limited to the following:

- The cost of the goods and services being purchased;
- Availability of service and/or repair;
- The targeted small business procurement goal and other statutory purchasing preferences; and
- Other factors deemed relevant by the board.

The Board may elect to exempt certain professional services contracts from the thresholds and procedures outlined above.

The thresholds and procedures related to purchases of goods and services do not apply to public improvement projects.

### **Public Improvements**

The board shall enter into public improvement contract(s) as the board deems to be in the best interest of the school district. 'Public improvement' means "a building or construction work which is constructed under the control of a governmental entity and for which either of the following applies: (1) has been paid for in whole or in part with funds of the governmental entity; (2) a commitment has been made prior to construction by the governmental entity to pay for the building or construction work in whole or in part with funds of the governmental entity. This includes a building or improvement constructed or operated jointly with any public or private agency."

The district shall follow all requirements, timelines, and processes detailed in Iowa law related to public improvement projects. The thresholds regarding when competitive bidding or competitive quotations is required will be followed. Competitive bidding is required for public improvement contracts exceeding the minimum threshold stated in law. Competitive quotations are required for public improvement projects that exceed the minimum threshold amount stated in law, but do not exceed the minimum set for competitive bidding. The board shall approve competitive bids and competitive quotes. If the total cost of the public improvement does not warrant either competitive bidding or competitive quotations, the district may nevertheless proceed with either of these processes, if it so chooses.

The award of all contracts for the public improvement shall be awarded to the lowest responsive, responsible bidder. In the event of an emergency requiring repairs to a school district facility that exceed bidding and quotation thresholds, please refer to Adair-Casey Community School District Policy 802.3 – *Emergency Repairs*.

The district shall comply with all federal and state laws and regulations required for procurement, including the selection and evaluation of contractors. When soliciting bids or otherwise preparing to enter into such a transaction, the superintendent or designee shall use at least one of the following verification methods to ensure that any parties to the transaction are not suspended or debarred prior to committing to any sub-award, purchase, or contract:

- (1) Obtaining a certification of a party's compliance with the federal suspension and debarment requirements in connection with any application, bid, or proposal;
- (2) Requiring compliance with the federal suspension and debarment requirements as an express condition of any sub-award, purchase, or contract in question; or
- (3) Prior to committing to any sub-award, purchase, or contract, check the online Federal System for Award Management at <https://sam.gov/portal/SAM/##11> to determine whether the relevant party is subject to any suspension or debarment restrictions.

PURCHASING ON BEHALF OF EMPLOYEES

Generally, the school district will not purchase items on behalf of employees. The school district may in unusual and unique circumstances do so. It is within the discretion of the board to determine when unique and unusual circumstances exist.

## EXPENDITURES FOR A PUBLIC PURPOSE

The board recognizes that school district funds are public funds, and as such, should be used to further a public purpose and the overall educational mission of the school community. The district is committed to managing and spending public funds in a transparent and responsible manner. Prior to making a purchase with public funds, an individual should be comfortable defending the purchase/reimbursement to the taxpayers in the district. If the individual is uncomfortable doing so, the purchase may not fulfill a public purpose and additional guidance should be sought before the purchase is made.

Individuals who have concerns about the public purpose of a purchase or reimbursement should utilize the district's *Internal Controls* policy and regulation as a resource for questioning a purchase. Concerns should be reported to the superintendent and/or the board president.

The superintendent shall develop a process for approving expenditures of public funds. The board will review expenditures and applicable reports as necessary to ensure proper oversight of the use of public funds. To the extent possible, expenditures shall be pre-approved by the district prior to expending the funds. Purchases of food and refreshment for district staff, even within district, should comply with the district's *Employee Travel Compensation* policy, and all other applicable policies. All purchases/reimbursements shall comply with applicable laws, board policies and district accounting requirements.

Additional guidance regarding appropriate expenditures of school funds is provided in the regulation accompanying this policy

## USE OF PUBLIC FUNDS REGULATION

The following is a list of examples organized by activity for what is allowable, or not allowable as a purchase/reimbursement using public funds. This regulation is intended as guidance and there may be situations that are not listed here. Any questions regarding the appropriateness of an expenditure should be submitted to administration **prior** to expending funds.

**Reimbursements to an Individual**

- Use of Credit/Procurement Card: All purchases through a district-owned credit or procurement card shall be pre-approved and comply with the district's policy *401.16 – Credit and Procurement Cards*.
- Mileage: Individuals who are required to travel (other than to and from work) as part of fulfilling their job duties to the district shall be reimbursed for mileage costs in accordance with the requirements stated in the district's *Employee Travel Compensation* policy.
- Travel accommodations: Employees who are required to travel and stay overnight as part of fulfilling their job duties to the district shall be reimbursed for costs in accordance with the requirements stated in the district's *Employee Travel Compensation* policy.
- Alcohol: Alcohol is a personal expense and is never allowable for purchase or reimbursement using public funds.
- Food/Refreshments: Food and refreshments are typically a personal expense. Meetings spanning meal times should be avoided when possible. When a district meeting is required to take place spanning a customary meal time, the superintendent or designee shall determine whether food and/or refreshment will be provided to employees whose presence is required during the meeting. The cost of food and refreshment for employees shall be reasonable, and when possible, a separate itemized receipt for each employee is required. If an itemized receipt is not available, approval is required by the school business official prior to reimbursement. In all cases, the names and number of employees shall be noted on the receipt.
- Apparel/Personal Items: Apparel and personal items including, but not limited to items such as t-shirts, hats, mugs, etc. provide personal benefit to individuals and are a personal expense. These items shall not be purchased or reimbursed with public funds.
- Gifts: Gift cards or gifts given to individuals are personal expenses and public funds should not be used (except for recognition/staff retirement, listed below) for these purposes. Voluntary collections from staff would be an acceptable way of purchasing gifts.
- Retirement and Recognition Gifts: Recognizing an employee or volunteer's years of dedication to educating the community and commitment to the district serves a public purpose by honoring individuals with a token gift, or honorarium, in recognition of their service. The same is true for individual awards, mementos, or items purchased in recognition of employee service to the district. These purchases may use public funds, provided the expenditures are modest and approved by the superintendent.
- Honoraria: District employees may at times receive an honorarium from an outside source as compensation for the employee's time devoted to preparing and delivering a presentation within the scope of their professional field. Honorariums may only be accepted by employees when the employee has used their personal time outside of their work for the district to prepare and deliver the presentation. If the employee uses district time or resources to prepare or deliver a presentation, any honorarium shall be given to the district.

**Supplies for Public Areas**

- Limited refreshments such as water and coffee may be available in public reception areas of the district including, but not limited to the central office, the building administrator's office, etc. These refreshments may be purchased with the use of public funds, as they provide light refreshment to members of the community.

**Staff Parties/Receptions**

- Parties and receptions to benefit individual staff members are considered a personal expense and should not be purchased or reimbursed with public funds. This includes but is not limited to holiday parties.
- Hosting a group reception to honor all employees retiring from the district in a given school year is allowable as a public expense. Hosting a retirement reception provides a direct benefit to the community as an opportunity for the community to attend and honor the retiring employees' years of dedication and service to the district.

**School/ Student Activity Banquets**

- School/student activity banquets are typically a personal expense and will not be purchased or reimbursed with public funds unless the public purpose is submitted for review and pre-approved by the superintendent.

**Memorial Gifts**

- Memorial flowers and/or gifts to convey sympathy or congratulations are allowable as a public expense if they have been approved by the superintendent. Memorial cards are always appropriate.

**Student Incentives**

- It is within the discretion of the building principal to authorize the purchase of awards holding a nominal value to commemorate the achievements of a student or group of students. These awards should be designed to reward behavior and values that exemplify the educational and community mission of the district. Awards should not be gift cards or other monetary awards.
- Flowers and decorations for school dances held as part of the district's student activity program are an allowable expense paid out of the student activity fund, provided the purchases are approved by the building principal.

**Meetings**

- To the extent possible, meetings which span normal meal times should be avoided.
- Meetings of the district's board of directors and board committees are made up of individuals who volunteer a large amount of their personal time to serve the needs of the school community. These meetings are also scheduled at time most convenient for the public, and often span normal meal hours. Food and refreshment purchased for board members is an acceptable use of public funds. The service of these unpaid volunteers directly benefits the entire school community. The superintendent has discretion to purchase/reimburse reasonable expenses for providing food and refreshment to these unpaid volunteers during these meetings.

Some expenditures will be considered personal expenses regardless of the context. These include purchase or reimbursement of alcohol, and personal items not included as retirement or memorial gifts listed above.

## PAYROLL PERIODS

The payroll period for the school district is monthly. Employees are paid on the 20<sup>th</sup> day of each month. If this day is a holiday or weekend, the payroll is paid on the last working day prior to the holiday or weekend.

It is the responsibility of the board secretary to issue payroll to employees in compliance with this policy.

## PAY DEDUCTIONS

The district provides leaves of absences to allow employees to be absent from work to attend to important matters outside of the workplace. As public employers, school districts are expected to record and monitor the work that employees perform and to conform to principles of public accountability in their compensation practices.

Consistent with principles of public accountability, it is the policy of the district that, when an employee is absent from work for less than one work day and the employee does not use accrued leave for such absence, the employee's pay will be reduced or the employee will be placed on leave without pay if:

- the employee has not sought permission to use paid leave for this partial-day absence,
- the employee has sought permission to use paid leave for this partial-day absence and permission has been denied,
- the employee's accrued paid leave has been exhausted, or,
- the employee chooses to use leave without pay.

In each case in which an employee is absent from work for part of a work day, a deduction from compensation will be made or the employee will be placed on leave without pay for a period of time which is equal to the employee's absence from the employee's regularly scheduled hours of work on that day.

Alternatively, any employee may file a formal written complaint with the Business Manager. Within 15 business days of receiving the complaint, the Superintendent will make a determination as to whether the pay deductions were appropriate and provide the employee with a written response that may include reimbursement for any pay deductions that were not appropriately made.

This complaint procedure is available in addition to any other complaint process that also may be available to employees.

## INTERNAL CONTROLS

The board expects all board members, employees, volunteers, consultants, vendors, contractors, students and other parties maintaining any relationship with the school district to act with integrity, due diligence, and in accordance with all laws in their duties involving the school district's resources. The board is entrusted with public dollars and no one connected with the school district should do anything to erode that trust.

Internal controls are used to help ensure the integrity of district financial and accounting information. Adherence to district-established internal control procedures is the responsibility of all employees of the school district. The superintendent, business manager and board secretary shall be responsible for developing internal controls designed to prevent and detect fraud, financial impropriety, or fiscal irregularities within the school district subject to review and approval by the board. Administrators shall be alert for any indication of fraud, financial impropriety, or irregularity within the administrator's area of responsibility.

Any employee who suspects fraud, impropriety, or irregularity shall report their suspicions immediately to his/her immediate supervisor and the superintendent. The superintendent shall have primary responsibility for any necessary investigations and shall coordinate investigative efforts with the board's legal counsel, auditing firm, the Auditor of State's office and other internal or external departments and agencies, including law enforcement officials, as the superintendent may deem appropriate.

Employees bringing forth a legitimate concern about a potential impropriety will not be retaliated against and those who do retaliate against such an employee will be subject to disciplinary action up to, and including, discharge.

In the event the concern or complaint involves the superintendent, the concern shall be brought to the attention of the board president or vice-president who shall be empowered to contact the board's legal counsel, Auditor of State's office, insurance agent, auditing firm, and any other agency to investigate the concern or complaint.

The superintendent or board president shall ensure the Auditor of State's office is notified of any suspected embezzlement, theft or other financial irregularity pursuant to Iowa law. The superintendent and/or board president in coordination with the Auditor of State's office, will determine whether to conduct a complete or partial audit. The superintendent is authorized to order a complete forensic audit if, in the superintendent's judgment, such an audit would be useful and beneficial to the school district. In the event there is an investigation, records will be maintained for use in the investigation. Individuals found to have altered or destroyed records will be subject to disciplinary action, up to and including termination.

## INSURANCE PROGRAM

The board will maintain a comprehensive insurance program to provide adequate coverage against major types of risk, loss, or damage, as well as legal liability. The board will purchase insurance at replacement values, when possible, after reviewing the costs and availability of such insurance. The comprehensive insurance program is reviewed once every three years. Insurance will only be purchased through legally licensed Iowa insurance agents.

The school district will assume the risk of property damage, legal liability, and dishonesty in cases in which the exposure is so small or dispersed that a loss does not significantly affect the operation of the education program or financial condition of the school district.

Insurance of buildings, structures, or property in the open will not generally be purchased to cover loss exposures below \$1,000 unless such insurance is required by statute or contract.

The board may retain a private organization for fixed assets management services.

Administration of the insurance program, making recommendations for additional insurance coverage, placing the insurance coverage and loss prevention activities is the responsibility of the superintendent. ## MEAL CHARGES

In accordance with state and federal law, the Adair-Casey Community School District adopts the following policy to ensure school district employees, families, and students have a shared understanding of expectations regarding meal charges. The policy seeks to allow students to receive the nutrition they need to stay focused during the school day, prevent the overt identification of students with insufficient funds to pay for school meals, and maintain the financial integrity of the nonprofit school nutrition program.

### **Payment of Meals**

Students have use of a meal account. Families may add money to student accounts by using an electronic payment system or by paying with cash or check at the school office.

Students who qualify for free meals shall never be denied a reimbursable meal, even if they have accrued a negative balance from previous purchases. Schools are encouraged to provide a reimbursable meal to students with outstanding meal charge debt. If an alternate meal is provided, the meal must be the same meal presented in the same manner to any student requesting an alternate meal.

Employees may use a charge account for meals, but may charge no more than \$10.00 to this account. When an account reaches this limit, an employee shall not be allowed to charge further meals or a la carte items until the negative account balance is paid.

### **Negative Account Balances**

The school district will make reasonable efforts to notify families when meal account balances are low. Additionally, the school district will make reasonable efforts to collect unpaid meal charges classified as delinquent debt. The school district will coordinate communications with the student's parent or guardian to resolve the matter of unpaid charges. Parents or guardians will be notified of an outstanding negative balance once the student owes five meals or more. Parents or guardians will be notified by notes or letters sent home, email, telephone calls or texts. Negative balances not paid prior to the end of the school year will be turned over to the superintendent or superintendent's designee for collection. Options may include: collection agencies, small claims court, or any other legal method permitted by law.

### **Unpaid Student Meals Account**

The district will establish an unpaid student meals account in a school nutrition fund. Funds from private sources and funds from the district flexibility account may be deposited into the unpaid school meals account in accordance with law. Funds deposited into this account shall be used only to pay individual student meal debt.

### **Communication of the Policy**

The policy and supporting information regarding meal charges shall be provided in writing to:

- All households at or before the start of each school year;
- Students and families who transfer into the district, at time of transfer; and
- All staff responsible for enforcing any aspect of the policy.

## STUDENT SCHOOL TRANSPORTATION ELIGIBILITY

Elementary and middle school students living more than two miles from their designated school attendance centers and high school students living more than three miles from their designated attendance centers are entitled to transportation to and from their attendance center at the expense of the school district.

Transportation of students who require special education services will generally be provided as for other students, when appropriate. Specialized transportation of a student to and from a special education instructional service is a function of that service and, therefore, an appropriate expenditure of special education instructional funds generated through the weighting plan.

Transportation of a student to and from a special education support service is a function of that service, and is specified in the individualized education program or the individualized family service plan (IFSP). When the IEP team determines that unique transportation arrangements are required and the arrangements are specified in the IEP or IFSP, the school district will provide one or more of the following transportation arrangements for instructional services and the AEA for support services:

- Transportation from the student's residence to the location of the special education and back to the student's residence, or child care placement for students below the age of six.
- Special assistance or adaptations in getting the student to and from and on and off the vehicle, en route to and from the special education.
- Reimbursement of the actual costs of transportation when by mutual agreement the parents provide transportation for the student to and from the special education.

The school district is not required to provide reimbursement to parents who elect to provide transportation in lieu of agency-provided transportation.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It is within the discretion of the board to determine such conditions. Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Parents, who transport their children at the expense of the school district, are reimbursed at the rate per mile set by the state.

Transportation arrangements made by agreement with a neighboring school district will follow the terms of the agreement. Students, who choose to attend a school in a school district other than their resident school district, will provide transportation to and from the school at their own expense.

## STUDENT CONDUCT ON SCHOOL TRANSPORTATION

Students utilizing school transportation will conduct themselves in an orderly manner fitting to their age level and maturity with mutual respect and consideration for the rights of the school vehicle driver and the other passengers. Students who fail to behave in an orderly manner will be subject to disciplinary measures.

The driver will have the authority to maintain order on the school vehicle. It is the responsibility of the driver to report misconduct to the building administrator.

The board supports the use of video cameras on school buses used for transportation to and from school as well as for field trips, curricular or extracurricular events. The video cameras will be used to monitor student behavior and may be used as evidence in a student disciplinary proceeding. The videotapes are student records subject to school district confidentiality, board policy and administrative regulations.

After two warnings for bad conduct, the building principal will have the authority to suspend transportation privileges of the student or impose other appropriate discipline.

It is the responsibility of the superintendent, in conjunction with the building principal, to develop administrative regulations regarding student conduct and discipline when utilizing school district transportation.

## USE OF RECORDING DEVICES ON SCHOOL BUSES REGULATION

The board supports the use of recording devices on school buses as a means to monitor and maintain a safe environment for students and employees. The recording devices may be used on buses used for transportation to and from school, field trips, curricular events and extracurricular events. The contents of the recordings may be used as evidence in a student disciplinary proceeding.

### Student Records

The content of the recordings is a student record subject to board policy and administrative regulations regarding confidential student records. Only those persons with a legitimate educational purpose may view the recordings. In most instances, those individuals with a legitimate educational purpose may be the superintendent, building principal, transportation director, bus driver and special education staffing team. A parent may view the recordings without consent from any student or parent of a minor student also shown in the recording if the other students are bystanders. But if there is an altercation between multiple students, then all parents must give consent in order for the recordings to be viewed by parents.

A recording during a school-sponsored trip, such as an athletic event, may also be accessible to the sponsor or coach of the activity. If the content of the recording becomes the subject of a student disciplinary proceeding, it will be treated like other evidence in the proceeding.

### Notice

The school district will annually provide the following notice to students and parents:

The Adair-Casey Community School District Board of Directors has authorized the use of recording devices on school district buses. The recording devices will be used to monitor student behavior to maintain order on the school buses to promote and maintain a safe environment. Students and parents are hereby notified that the content of the recording may be used in a student disciplinary proceeding. The content of the recording are confidential student records and will be retained with other student records. Recordings will only be retained if necessary for use in a student disciplinary proceeding or other matter as determined necessary by the administration. Parents may request to view the recording of their child if the recordings are used in a disciplinary proceeding involving their child.

The following notice will also be placed on all school buses equipped with recording devices:

This bus is equipped with a recording/audio monitoring system.

## USE OF RECORDING DEVICES ON SCHOOL BUSES REGULATION

### Review of Recording Devices

The school district will review the recordings when necessary as a result of an incident reported by a bus driver or student. The recordings may be re-circulated for erasure after 2 – 3 weeks.

Viewing of the recordings is limited to the individuals having a legitimate educational purpose. A written log will be kept of those individuals viewing the recordings stating the time, name of individual viewing and the date the recordings was viewed.

### Recording Monitoring System

Recording devices will be used on all school district buses. Determination of how recording devices will be used and which school buses will be equipped with recording equipment will be made by the superintendent in consultation with the building principals and transportation director.

### Student Conduct

Students are prohibited from tampering with the recording devices on the school buses. Students found in violation of this regulation will be disciplined in accordance with the school district discipline policy and Good Conduct Rule and will reimburse the school district for any repairs or replacement necessary as a result of the tampering.

## STUDENT TRANSPORTATION FOR EXTRACURRICULAR ACTIVITIES

The board in its discretion may provide school district transportation for extracurricular activities including, but not limited to, transporting student participants and other students to and from extracurricular events.

Students participating or attending extracurricular events, other than those held at the school district facilities, may be transported to the extracurricular event by school district transportation vehicles or by another means approved by the superintendent.

Students, who are provided transportation in school district transportation vehicles for extracurricular events, will ride both to and from the event in the school vehicle unless arrangements have been made with the building principal prior to the event. A student's parent may personally appear and request to transport the student home from a school-sponsored event in which the student traveled to the event on a school district transportation vehicle.

It is the responsibility of the superintendent to make a recommendation to the board annually as to whether the school district will provide the transportation authorized in this policy. In making the recommendation to the board, the superintendent will consider the financial condition of the school district, the number of students who would qualify for such transportation, and other factors the board or superintendent deem relevant.

TRANSPORTATION OF NONSCHOOL GROUPS

Only in unusual circumstances will the board make school district transportation vehicles available to local nonprofit entities which promote cultural, educational, civic, community, or recreational activities for transporting to and from nonschool-sponsored activities in the state.

In the event school district transportation vehicles are made available to local nonprofit entities, it is the responsibility of the superintendent to develop administrative regulations for application for, use of, and payment for using the school district transportation vehicles.

## SCHOOL BUS SAFETY INSTRUCTION

The school district will conduct school bus safe riding practices instruction and emergency safety drills twice a year for students who utilize school district transportation.

Each school bus vehicle will have, in addition to the regular emergency safety drill, a plan for helping those students who require special assistance to safety during an emergency. This will include, but not be limited to, students with disabilities.

School district vehicle drivers are required to attend each safety drill.

Employees are responsible for instructing the proper techniques to be followed during an emergency, as well as safe riding practices. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

## TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" decisions and reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by bus radio when requested to do so. Other employees and students will be notified by tv and parent/student notification systems when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by tv and parent/student notification systems. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.
